

Great for use in

Animal Stalls, Holding Pens, Stock Yards, Sales Rings, Trailers, Tracks, Scales, Arenas, Chutes and Alleys

More effective than

Crushed Volcanic Rock, Crushed DE/Clay, Sand, Dirt, Crushed Zeolite and Zeolite Blends

ONM REDUCTION OF AMMONIA GAS

...eliminates more VOC's (Volatile Organic Compounds) in *SECONDS* than the leading competitor's claim in *HOURS*.

..eliminates ammonia which can cause respiratory irritation.

...absorbs and holds more than 99% of it's weight within 5 minutes of contact.

...is an effective soil amendment enhancing water retention, and solidifier of liquid animal waste; for soil and plant nutrition.

ONM utilizes BioLargo's patented CupriDyne™ technology consisting of a proprietary blend of salts which are GRAS (Generally Recognized as Safe), commonly found in multivitamins and typically found in animal feed supplements.

Acrylate-type Super Absorbent Polymer (SAP), is coated with the CupriDyne technology offering an environmentally safe and non-toxic Super Absorbing Deodorizer.

The **ONM** product is a Deodorizing Super Absorbent Bedding Additive which when applied to all types of animal bedding provides safe and effective Odor and Moisture reduction.

NOT INTENDED FOR USE WITH POULTRY

NOT INTENDED FOR FLOORS WITHOUT BEDDING MATERIAL

Odor-No-More™
Deodorizing Super Absorbent
Bedding Additive

CLEANER & DRIER = SAFER & HEALTHIER

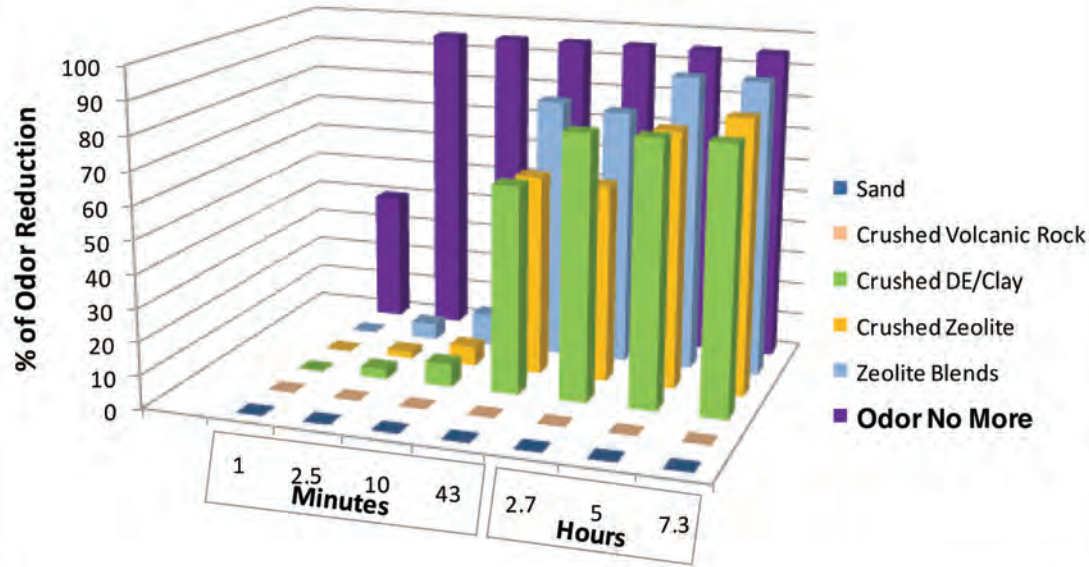

ODOR FREE
MINS. vs. HRS.

**Environmentally Friendly
Non-Toxic**

**24 X's
ABSORBENT**

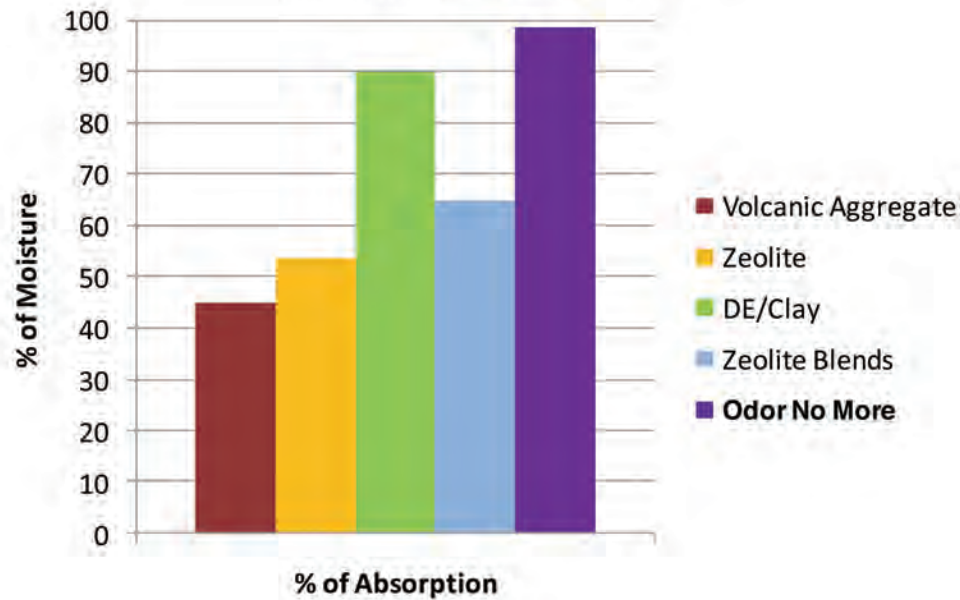

Extends Bedding Life and Reduces Waste
Eliminates ODORS Instead of Masking
Greatly Reduces Fly Infestations
Soil Amendment for Composting
Reduces Stall Maintenance
Eliminates Air-Way Irritation
Aids in Hoof Health

Levels of Deodorization

Odor-No-More reduces odors by 95% in **minutes**, other products do not reach this level of reduction in **hours**.

Levels of Absorption

Total Moisture Holding Capacity was measured by water flooding 100 grams of material for 5 minutes then draining the excess water. The amount of water retained was calculated in material weight percentage.

- Potential Cost Savings Per Application
- Odor Free in Minutes vs. Hours
- Environmentally Friendly
- 24 X's More Absorbent
- Non-Toxic
